ABSTRACT

For a work experience education program in vocational education for the secondary grades in California, learning activity packages (LAP) are provided separately for two general program goals which focus on the relevancy of school to career requirements and the importance of self-actualization. Program goals, performance objectives, learning activities with student worksheets, supplementary activities, and rationales are provided for the two general goals. Pre- and post-tests with answer keys are included in this extensive resource unit, intended for use as a student manual. (AG)

WORK EXPERIENCE EDUCATION LEARNING ACTIVITY PACKAGE

Type of Work Experience Education: VOCATIONAL

Program Goal: 1.1 Identify the educational goals (purposes) of the courses in which you are currently enrolled.

Performance Objective: 1.1.1 List the titles of courses in which you are currently enrolled, and give at least one (1) reason explaining why you enrolled in each course.

NOTE TO THE STUDENT

By the time you finish this LAP you will be able to give reasons why you are taking each of the courses in which you are currently enrolled.

RATIONALE

This LAP is designed to help you understand why you are enrolled in each of your courses, and to give you the tools to understand why any course is required or offered.

DIRECTIONS

In this LAP you will list each of your courses, discuss them with your work supervisor, and give at least one reason for your taking each course. In this and all following LAPS, you will first take a Pre-Test; then after discussing it with your teacher, do a Learning Activity, usually outlined in the directions; then take a Post-Test. In-Depth Educational Activities (I-DEAS) are provided at the end of each LAP for further investigation into the program goal and specific performance objective.

PRE-TEST

- 1. List the courses in which you are now enrolled on the form below.
- In the adjoining columns, give at least one (1) reason per course why you are enrolled in that course.

You should be able to give at least one (1) reason per course in addition to such answers as "It's Required" or "My counselor told me to."

PRE-TEST (Scoring Key)

Below are six (6) sample answers given for a high school government course. Note how the answers are increasingly specific as you read down the list.

Because it is required 1 point Because I was told it was a good course 2 points Because I will be voting in the next election 3 points Because I want to know my constitutional 4 points rights Because I plan to study Political Science in college 5 points Because I plan to get into government work and need to understand how our political system is organized and functions 6 points

As a student at the vocational level, your reasons should be more like the more specific answers in this example.

Rate your "reasons why I am enrolled" on a scale from 1 to 6, using this list as a guide. Compute your average score and record it on the form below. If it is 4.5 or better, and you have the approval of your teacher, you may skip this LAP. Otherwise, go on to the Learning Activities.

To evaluate your answers, look again at the scoring key for the Pre-Test. Again, your answers should be specific rather than vague, general, or irrelevant. Grade each of your answers using the same rating scale. Another form has been provided below for your answers. To pass this test, you should have an average score of 4.0 or better. You may have a classmate grade your answers for you.

LAP Prepared By: Dr. Norman R. Stanger

WORK EXPERIENCE EDUCATION

LEARNING ACTIVITY PACKAGE

Type of Work Experience Education: VOCATIONAL

Program Goal: 1.1 Identify the educational goals (purposes) of each of the courses in which you are currently enrolled.

Performance Objective: 1.1.2 Ask each of your teachers to tell you what the goals (major purposes) for students of the course are. Write out the goals for each course given to you by the teachers; then in your own words, describe what you think the goals of each course should be for you. Compare the two (2) sets of goals for each course, and describe how they are alike and how they are different.

NOTE TO THE STUDENT

By the time you finish this LAP you will be able to identify and relate the skills, knowledges, and attitudes learned in each of your courses with your future career goals and adult responsibilities.

RATIONALE

This LAP is designed to help you identify the purpose for each of your courses. Each course should teach you specific skills and knowledges as well as general attitudes -- each of which can be directly or indirectly related to your future career, and your responsibilities as a contributing member of society.

DIRECTIONS

In this LAP you will give your own reasons why each of your courses is being offered; you will get your teachers' reasons for your courses; and you will compare their ideas with yours.

PRE-TEST

Now put yourself in Peter's position and give two (2) or more reasons why he is taking the same P.E. class. Compare the two (2) sets of goals. PRE-TEST (Scoring Key)

Some possible answers for John would be:

- A. To get in as much practice in athletics as possible
- B. To keep in shape year-round

Some possible answers for Peter would be:

- A. Because it's required
- B. To keep in shape

Both Peter and John want to keep in shape. Peter's interest, however, ends there. whereas John is interested in developing his skills in all athletic areas as this will help him in his athletic career.

If you gave complete and reasonable answers, using this example as a guide, skip ahead to Part 1 only of Activity #1. (You will need this information for your next LAP.) Otherwise, do all of Activity #1 and Activity #2.

13

LEARNING ACTIVITIES AND RESOURCES

- ACTIVITY #1. There are three (3) parts to this Learning Activity. If you passed the Pre-Test, do Part 1; otherwise, do all three (3) parts.
 - A. On the enclosed form, (page 6), ask your teachers for the reasons for their particular course. Have them fill in their reasons on the appropriate place on the form.
 - B. Now write out (on the same form) two (2) to five (5) reasons why you believe each course is being offered. These should be your reasons, not your teachers'. Put your reasons for each course next to those of the appropriate teacher.
 - C. Compare the two (2) sets of reasons and describe in the appropriate column (on the same form) how the two (2) sets of reasons are alike; and in the last column, how they are different.

FILL IN YOUR ANSWERS ON THE FORM ON PAGE 6.

Before proceeding, it is important to understand the differences among skills, knowledges, and attitudes. A skill involves the ability to perform a task: throw a baseball accurately, operate a telescope, wire a lamp, etc. A knowledge is knowing information, such as: the rules of baseball, the names and locations of various constellations, or the principles of electricity. Attitudes involve just that!—How you feel about something: For example, sportsmanship, an appreciation for man, earth's place in the Universe, or a respect for safety in working with live wires.

4

4

To some degree, you will learn all three (3) skills, knowledges, and attitudes in each of your courses. Obviously, some courses teach primarily one or another, but all three: skills, knowledges, and attitudes are present. These are the goals of your course.

ACTIVITY	#2.	Prepare a short description of your courses appropriate for a school catalog or bulletin.

2. When you have completed the form, evaluate your understanding of goals in terms of skills, attitudes, and knowledges with your teacher. Do this by way of a brief discussion or conference. At the same time, mutually agree upon some grade or mark for your efforts in this LAP. Also, decide upon your next Learning Activity.

WORK	EXP	ERIENCE	EDU	CAT	ION
LEARN	IING	ACTIVIT	ry P	ACK	AGE

Type of Work Experience Education: VOCATIONAL

Program Goal: 1.1 Identify the educational goals (purposes) of the courses in which you are currently enrolled.

Performance Objective: 1.1.3 Based upon your findings under Performance Objective 1.1.2, analyze the two sets of goals for at least one (1) course and combine (synthesize) them into one set of goals that would make the course more relevant to you. Justify your conclusions.

NOTE TO THE STUDENT

By the time you finish this LAP you will be able to compare and synthesize your goal for a course with those of your teacher, and come up with a more relevant view of what you will actually learn and accomplish in a given course.

RATIONALE

This LAP is designed to help you understand that you have a point of view which may be different from your teacher's, and that a relevant and valuable goal for a given course can be synthesized from your goals and your teacher's. Keep in mind that the purpose of combining your point of view and your teacher's is to come up with a good synthesis in terms of relating your school work to your future career planning.

DIRECTIONS

In this LAP you will choose a course you are presently taking and compare your goals with those of your teacher; then combine them into one set of goals combining elements of both. Then you will justify your synthesis.

PRE-TEST

Below are three (3) sets of goals. Each set consists of two (2) goals for one class. Combine (synthesize) the two goals into one goal, combining the elements of both given goals.

1.	Bus	iness Machines Course.
	A.	To learn the operation of an adding machine
	В.	To learn what machines are used in a typical office

2.	Hor	ticulture Course.

3.	Sew	ing Course.
	A.	To learn to operate a sewing machine
	В.	To learn tailoring techniques
	c.	(Synthesis)

20 ⁻²⁻

PRE-TEST (Scoring Key)

Some possible answers are:

- 1. To learn to select the proper machine and operate it in an office situation.
- 2. To learn what food and flowers can be grown in my yard, and how to nurture them.
- 3. To learn to use a sewing machine to make tailored clothes.

If your answers were similar to these -- that is, you combined both goals into one synthesis, you may, with the approval of your instructor, skip this LAP or one of the activities.

RATIONALE

This LAP is designed to help you realize your basic needs and how they can affect your life plans.

DIRECTIONS

This LAP is to be completed by all students enrolled in vocational work experience. Some of the activities require group participation and should be completed only in programs where leaders for small groups can be arranged. IV. Small group activity (10-20) students

This activity to be completed where program provides time and leadership for small group participation. Omit if LAP is completely on independent basis.

A. Create a situation in which someone's needs or values are involved and have student "role play" how they would handle the situation as a counselor.

Sara, 18, is a waitress. She works in a restaurant known for its fine food and excellent service. She dresses neatly and is always well groomed. She has a good memory and never makes mistakes on orders. Her arithmetic is always correct on customer's checks. However, Sara does not smile easily. This, even though she is a good worker, makes her less popular with the customers; and her tips usually amount to less than that received by the other girls. The busiest day of the year for the restaurant where Sara works is Mother's Day. Every girl is expected to work on that day. However, Sara wanted to visit her own mother in Chicago on Mother's Day--so she begged the restaurant manager to let her off on the busiest day of the year. Although the manager gave Sara the day off, he and the other waitresses felt that Sara had let them down. Everyone else had to work that much harder. The manager is thinking of firing Sara because she can't get along with the other employees and is irritable toward the customers.

> Sara is an intelligent girl and a good worker, yet she might be fired. Can she do anything which will save her job? As a counselor please advise her.

If your answers to the Pre-Test are complete and clearly demonstrate that you understand the Performance Objective 2.2.3, your instructor may direct you to proceed immediately to the next Performance Objective 2.2.4.

PRE-TEST (Scoring Key)

- 1. Job Satisfaction is deriving the highest possible personal fulfillment for doing the kind of work you like to do.
- 2. (a) An employee can use his Job Satisfaction Report to help him determine his strengths: to analyze his weaknesses: and turn them into strengths, thereby increasing his personal fulfillment.
 - (b) An employer uses a Job Satisfaction Report to make important decisions about the employee's personal traits and skills.
- 3. An accurate and honest Job Satisfaction Report can help you see your strengths and weaknesses. You can then work on your weaknesses and enhance your strengths.
- 4. You can improve your personal fulfillment by comparing your weekly Job Satisfaction Reports; analyze your job performance to see if you are repeating your same mistakes and if you have asked for help where you need it. You can judge whether you have made your contributions in the "best things that happened"; you can also judge whether it was your weakness that contributed to the "worst thing that happened", and thereby correct your weakness and prevent the incident from reoccuring.
- 5. A means by which you learn all you can about yourself.
- 6. Self-explanatory
